

Press Release

Issued 5 November 2010 – for immediate release

Introduction of Phantasm CS Publisher corporate license

The leading Adobe Illustrator™ design and pre-press tool stretches its wings

Astute Graphics (www.astutegraphics.com) is pleased to announce the introduction of Corporate and Volume Licensing for the leading Adobe Illustrator™ plug-in, Phantasm CS Publisher.

Already used the world-over by international brand owners, cutting-edge publishing houses and major printers, Phantasm CS Publisher brings cost savings, workflow enhancements and new creative possibilities to all Adobe Illustrator users. Layers magazine, whilst reviewing Phantasm CS, is quoted as saying:

“Phantasm CS’s prepress options are so important that I wonder why it took a third-party company to add the features to Illustrator.”

Reference: www.astutegraphics.com/products/phantasm/reviews.html

With the introduction of the new license types, it is now easier than ever for organisations with 50 or more users of Illustrator to take advantage of the essential functionality offered. This includes direct color control and pre-press checks all within the Illustrator document, embedded image editing, allowance for flexo printing and much more.

As an introductory offer, which *won't* extend into 2011, Astute Graphics is making available an amazing corporate license; unlimited number of Phantasm CS Publisher installations within a single organisation, plus 5 hours free on-line training, priority email support and telephone support*. All this is offered for **£9,550 +VAT** — approximately \$15,400 or €10,975.

Alternative volume pricing structures and benefits are available.
